Hi! I'm Sheri, and I would like to work with you!

I am a Graphic & Motion Designer and Illustrator with 10 years of professional experience. My background is in website and email design, and I began working with motion design in early 2016. I'm seeking a position in the games industry, preferably in website design and marketing.

Web and Print Design • Motion Design • Email Campaign Design
Logo Design • Branding • Powerpoint Design • Photo Editing • Video Editing
Digital & Traditional Illustration • Character Design

PROFESSIONAL EXPERIENCE

Graphic Designer @ Mandalay Solutions

2007 - 2010

I began my career working with Mandalay Solutions in 2007, primarily creating websites but occasionally I would work on logos and branding, as well as print marketing materials.

Senior Designer @ AutoLoop

2010 - 2017

I began working for AutoLoop as an Email Campaign Designer in 2010, and was promoted to Art Director of Marketing in 2012. In 2013, I moved out of state and began working with AutoLoop on a contract basis. My responsibilities ranged from email template design to new product branding and management. While in-house, I was responsible for managing a core team of designers and oversight of the design department. I received an award from AutoLoop in December 2012 for Outstanding Employee Performance.

Graphic Designer @ Maple Systems

2017 - Current

My responsibilities at Maple Systems are widely varied and range from website design to magazine advertising. I am responsible for much of the Marketing department's output and serve as a mentor to the Junior designer on staff.

Freelance & Volunteer Graphic Design and Illustration

2012 - Current

I've done freelance and volunteer design and illustration work for various companies and causes, most notably: Hipmunk, Reddit Corporate, and The Girl Scouts of Western Washington. I am also an on-staff volunteer for GeekGirlCon as their Marketing Designer. Additionally, I operate my own independent graphic and motion design shop called *Stream it Pretty*, focused on creating graphics for individuals and companies that stream content on the internet.

THANK YOU FOR YOUR CONSIDERATION!
